**THEORETICAL ERRORS OF ZHEN-TSZYU THERAPY  
AS PROBLEM OF FUNCTIONAL VEGETOLOGY.  
TRADITIONAL RULE "LEFT-RIGHT (MAN-WOMAN)"  
(FINAL INFORMATION)**

Junior research (European centre for postgraduate education of doctors of the  
PO the " Ukrainian National Academy of Natural Sciences")

**Summary.** The article presents the final scientific data under the section "Theoretical errors of Zhen-tszyu therapy as problem of functional vegetology. Traditional rule "Left-Right (man-woman)". Forgotten knowledge of previous civilizations should become clear and accessible through their scientific adaptation and belong to modern society. An improved methodology for visualizing experimental materials aimed at their biophysical reality, vegetative nature and requires the attention of general practitioners and rehabilitation physicians.

**Key words:** functional vegetology, theory and practice of traditional Zhen-Tszyu therapy

**Резюме.** В наведеній статті приводяться дані по розділу "Теоретичні помилки Чжень-цзю терапії як проблема функціональної вегетології. Традиційне правило "Лівий-Правий (Чоловік-Жінка)". Забуті знання попередніх цивілізацій повинні стати зрозумілими і доступними через їх наукову адаптацію і належати сучасному суспільству. Удосконалена методологія візуалізації експериментальних матеріалів спрямована на підтвердження їх біофізичної реальності, вегетативної сущності і вимагає уваги лікарів загальної практики та реабілітологів.

**Ключові слова:** функціональна вегетологія, теорія і практика традиційної Чжень-цзю терапії

**Резюме.** В статье приводятся заключительные научные данные по разделу "Теоретические ошибки Чжень-цзю терапии как проблема функциональной вегетологии. Традиционное правило "Левый-Правый (Мужчина-Женщина)". Забытые знания предыдущих цивилизаций должны стать понятными и доступными через их научную адаптацию и принадлежать современному обществу. Усовершенствованная методология визуализации экспериментальных материалов направлена на подтверждение их биофизической реальности, вегетативной сущности и требует внимания врачей общей практики и реабилитологов.

**Ключевые слова:** функциональная вегетология, теория и практика традиционной Чжень-цзю терапии

## Introduction

### 1. THE EMPIRICAL BASES OF THE RULE "LEFT - RIGHT (MAN-WOMAN)"

It is considered, that six pairs of channels of left (male, YANG) and right (female, YIN) parts of the body are in continuous contrast-opposite (asynchronous) dependency: LI-SI, ST- GB, BL-TE (*YANG group*) and LU-HT, SP-LR, PC-KI (*YIN group*). It practically means, that activation of the channel LU (Lungs) simultaneously conditions oppression of the channel HT (Heart) and vice versa, activation of the channel LI (Large intestine) – oppression of the channel SI (Small intestine), and vice versa (fig. 1) [1, p.33-139; 2, p.90-119].

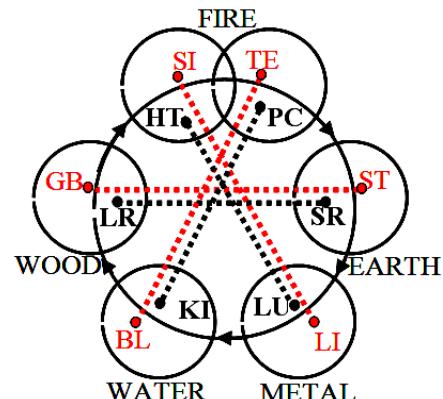

Fig. 1 Traditional rule LEFT-RIGHT (asynchronous reaction YANG group and YIN group).

## Materials and methods

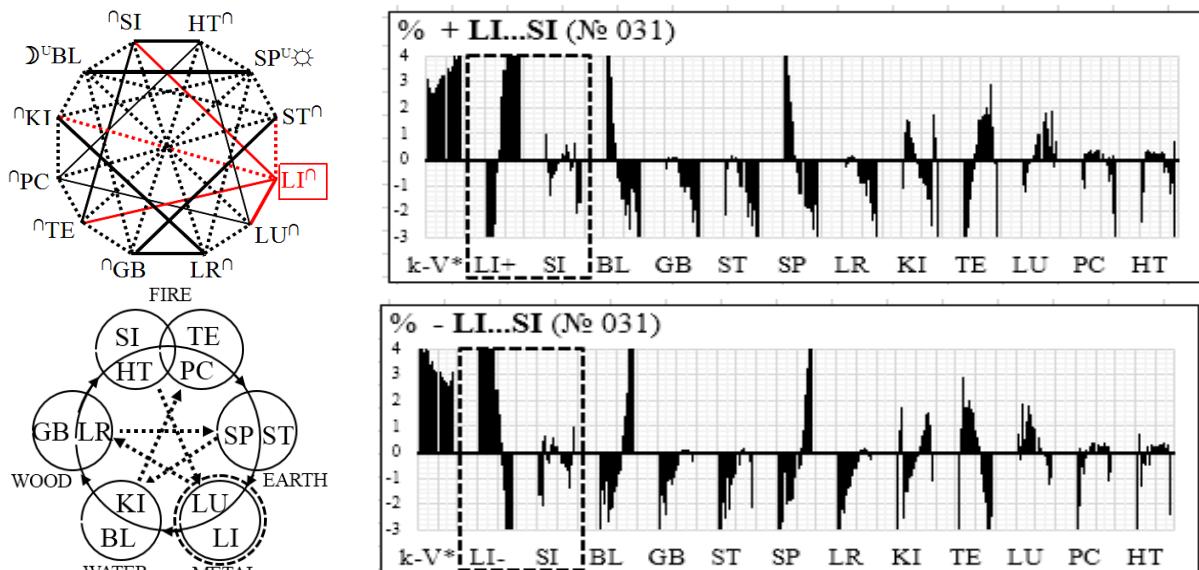

Keeping in mind the problematic character of the issue, the biophysical reality of the rule will be considered as a systemic dependency under the excitation separate channels (their oppression conditions the opposite systemic dependency). At the same time, let us pay attention to the results of the biophysical identification of system dependence and matrix analysis [1, p.123-132; 2, p.90-119, p.120-125].

## Results and discussion

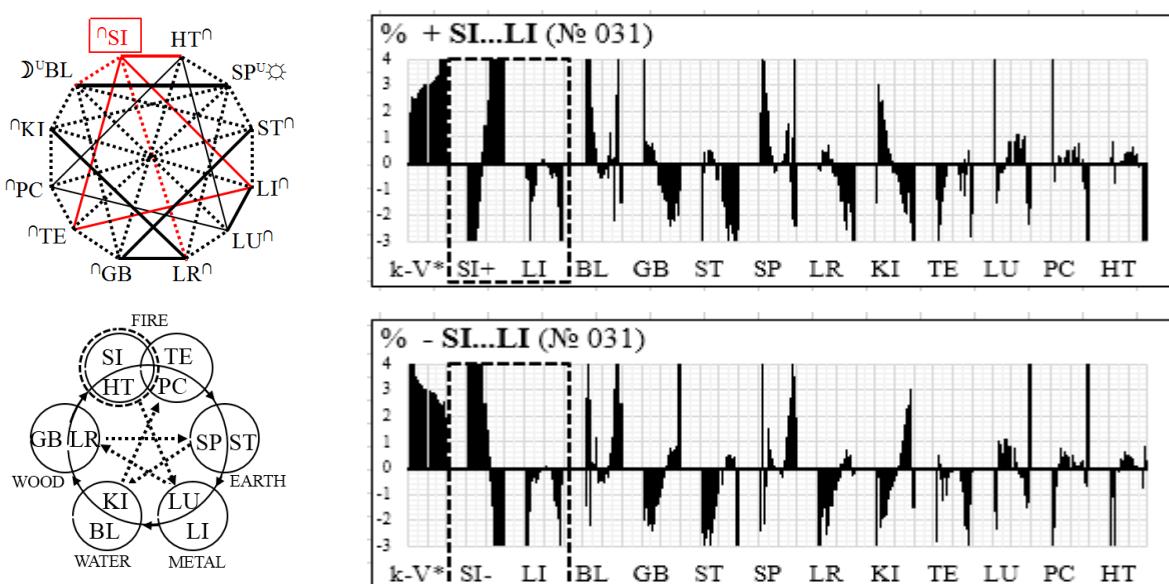

### 2.MATRICAL REALITY OF TRADITIONAL THE SITUATION "LEFT-RIGHT (MAN-WOMAN)"

"Matrix analysis" indicates the following (fig.2.1-12).

1.The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **LI-SI (SI-LI)** through all groups of observations is biophysical not real, which is indicated by the synchronicity of its system-functional dependency (fig.2.1).

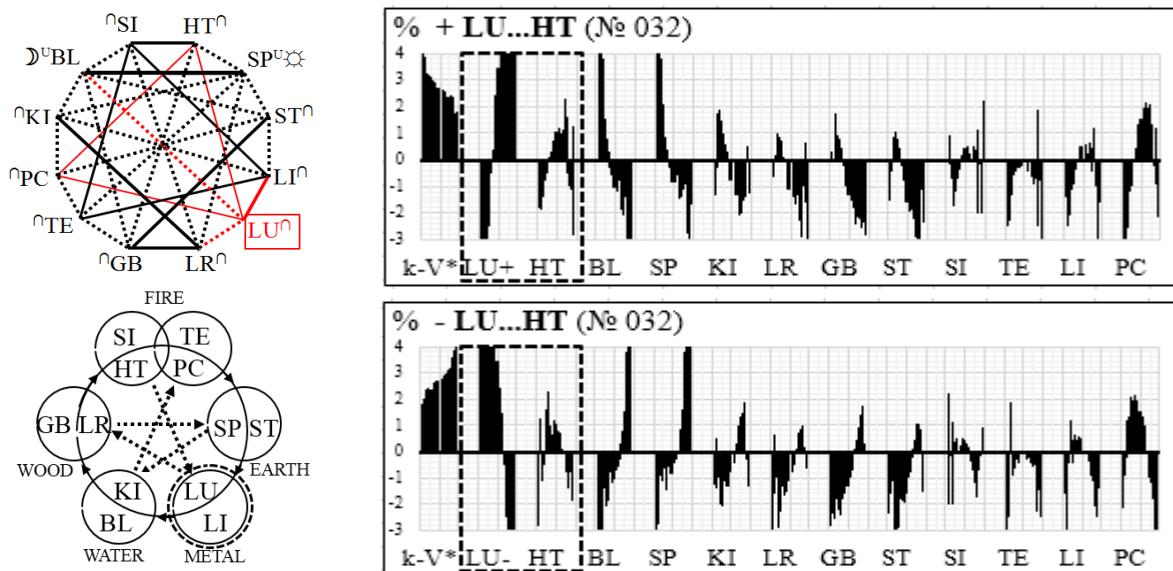

*Matrix. Paradoxical dependence of the complex "± LI...SI"*

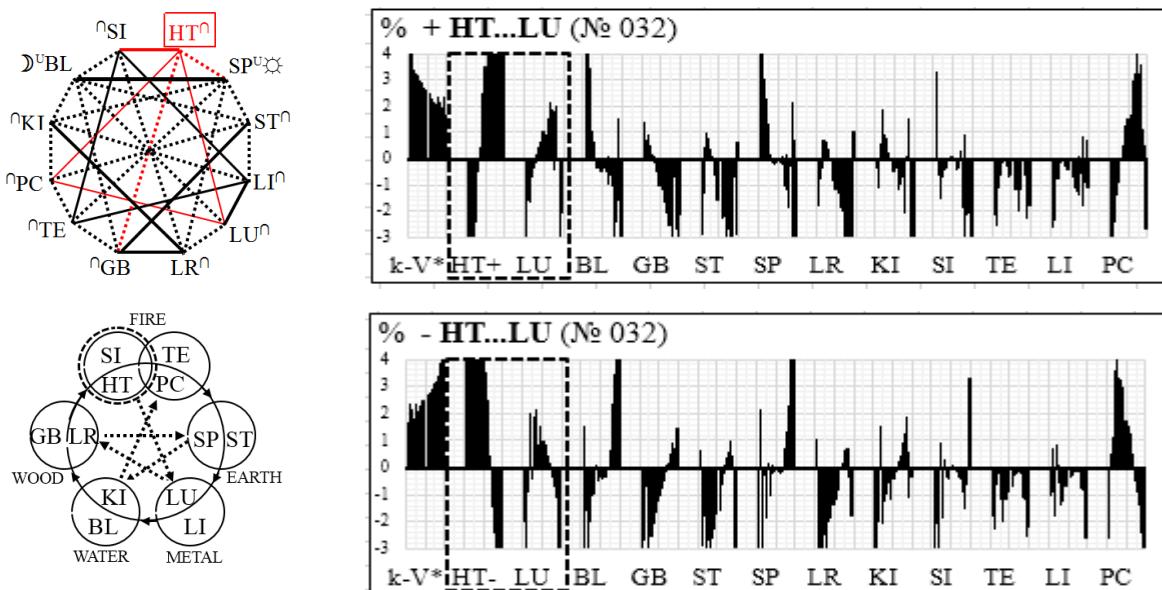

*Matrix. Paradoxical dependence of the complex "± SI ... LI"*  
Fig. 2.1

2.The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **HT-LU (LU-HT)** through all groups of observations is biophysically not real, which is indicated by the synchronicity of its system-functional dependency (fig.2.2).

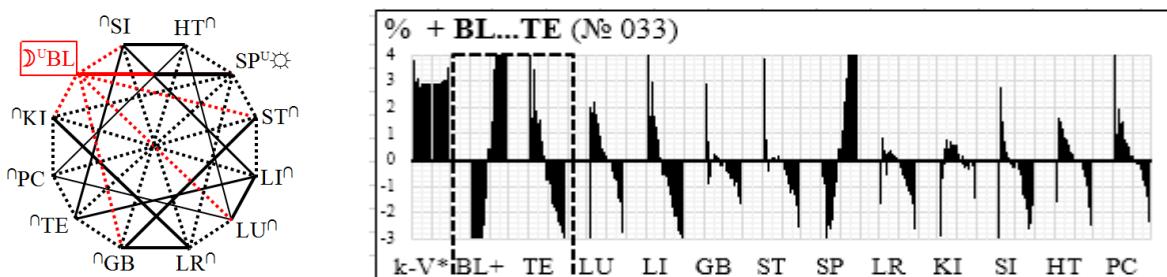

*Matrix. Paradoxical dependence of the complex "± LU ... HT"*

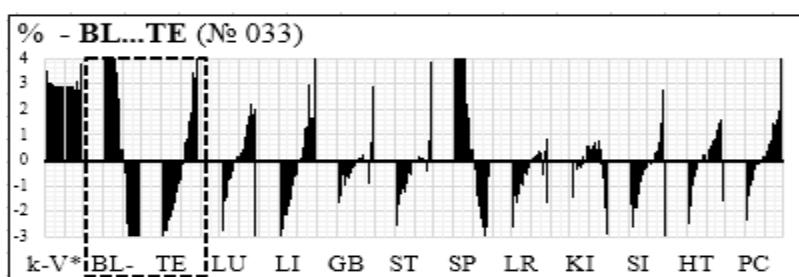

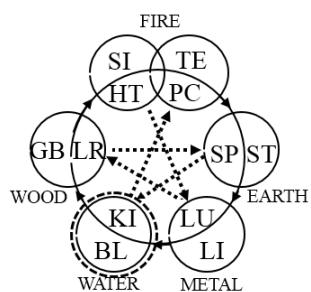

*Matrix. Paradoxical dependence of the complex "± HT...LU"*

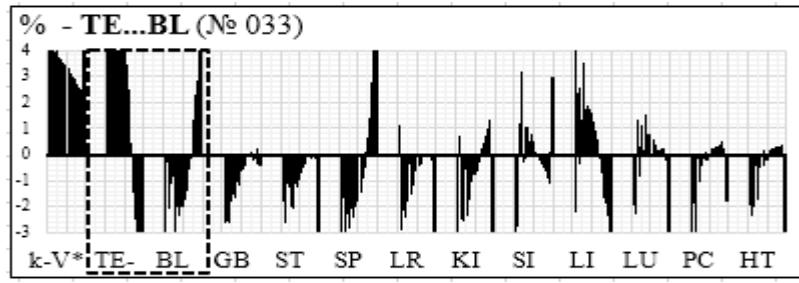

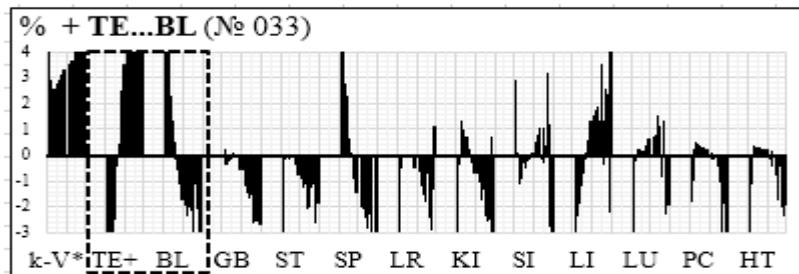

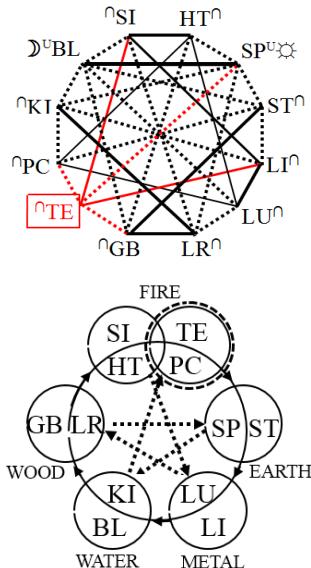

Fig. 2.2

3. The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **BL-TE** (**TE-BL**) through all groups of observations is biophysically real, which is indicated by the asynchronicity of its system-functional dependency (fig. 2.3).

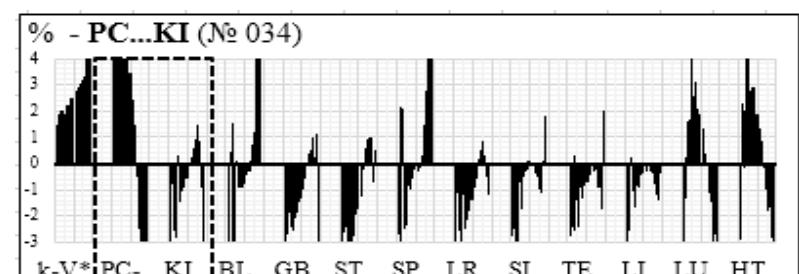

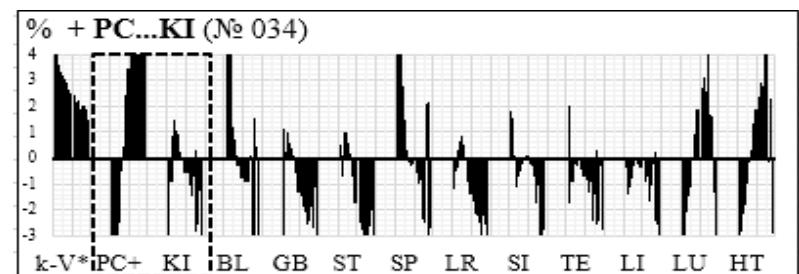

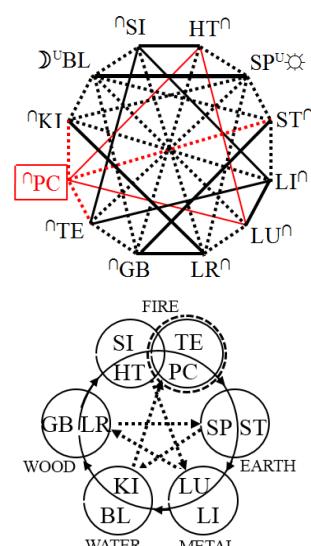

*Matrix. Asynchronous dependence of the complex "± BL...TE"*

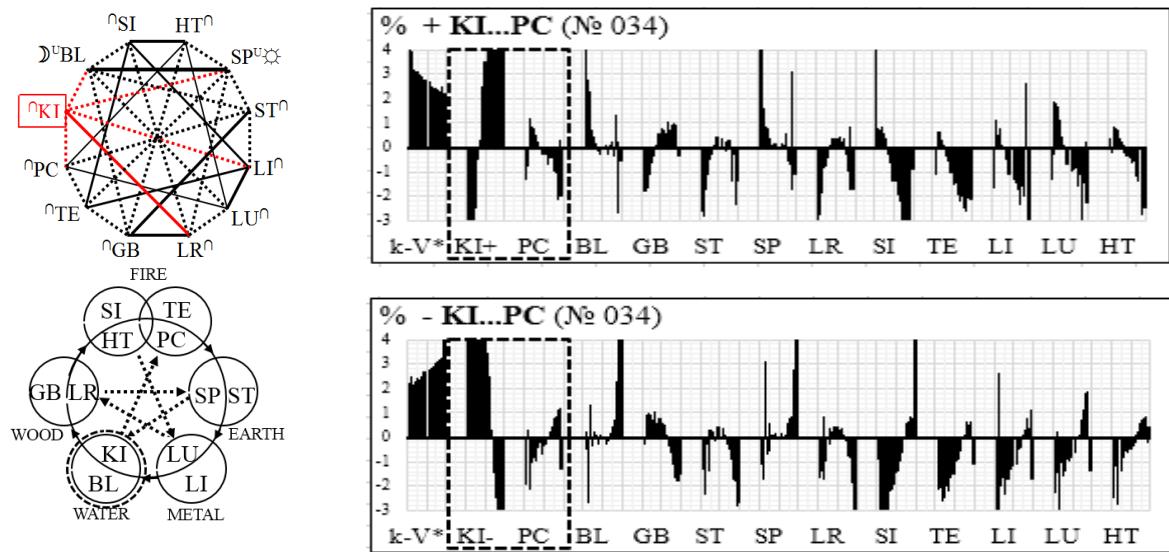

*Matrix. Asynchronous dependence of the complex "± TE...BL"*

Мал. (Fig.) 2.3

4. The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **KI-PC (PC-KI)** through all groups of observations is biophysically real, which is indicated by the asynchronicity of its system-functional dependency (fig.2.4).

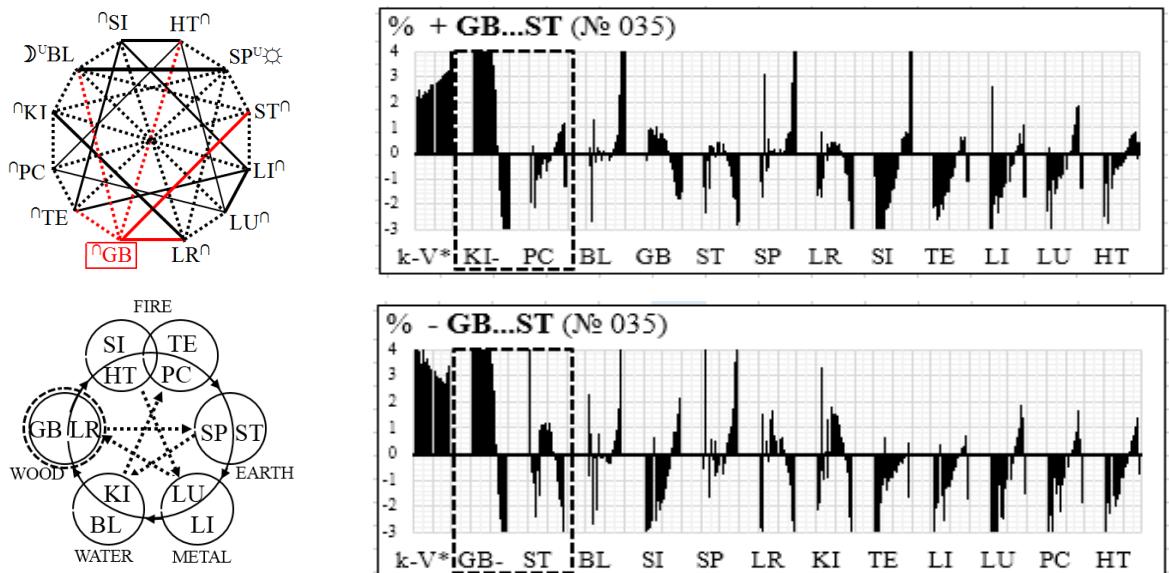

*Matrix. Asynchronous dependence of the complex "± PC...KI"*

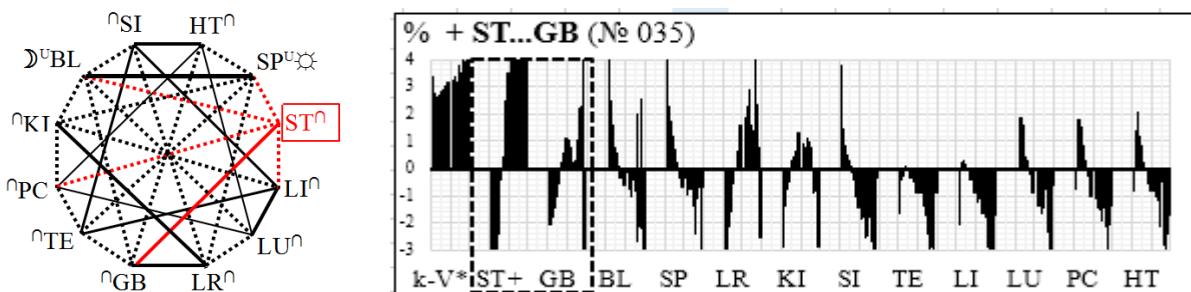

*Matrix. Asynchronous dependence of the complex "+ KI...PC"*

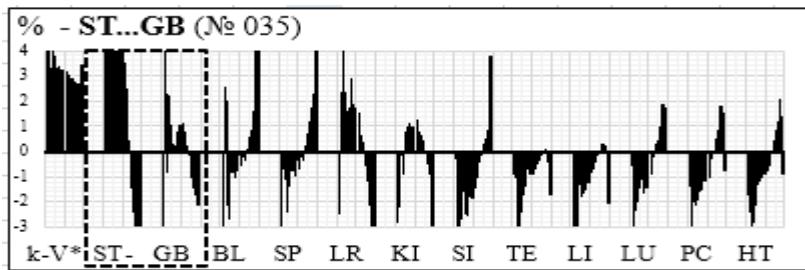

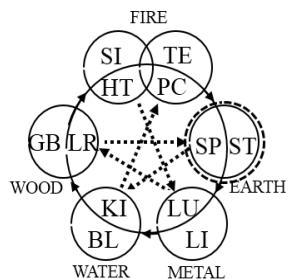

Fig. 2.4

5. The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **ST-GB (GB-ST)** through all groups of observations is biophysically not real, which is indicated by the synchronicity of its system-functional dependency (fig.2.5).

*Matrix. Paradoxical dependence of the complex "+ GB...ST"*

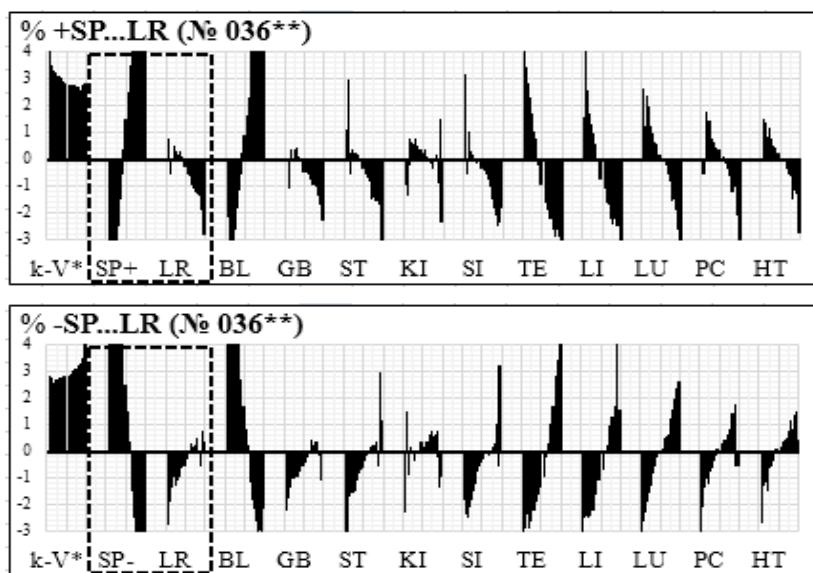

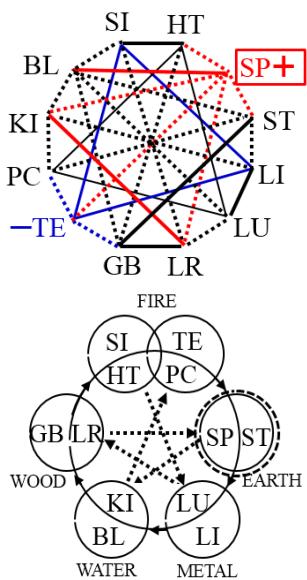

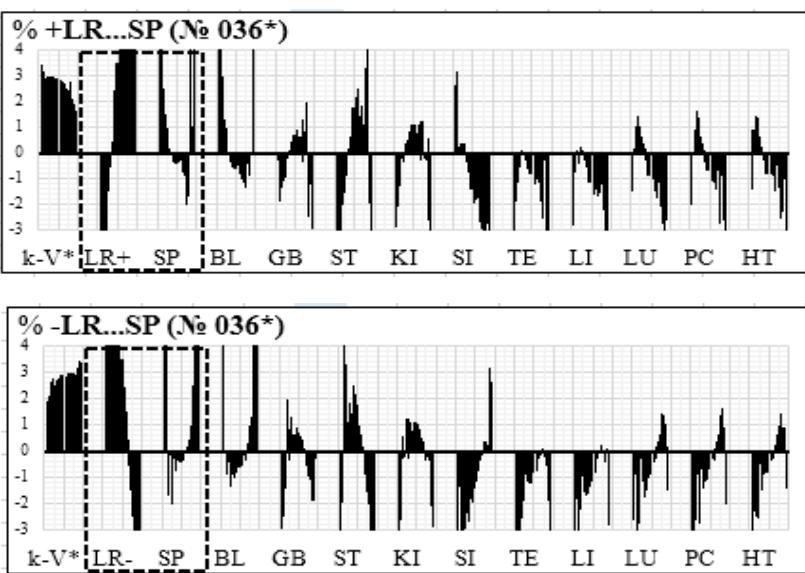

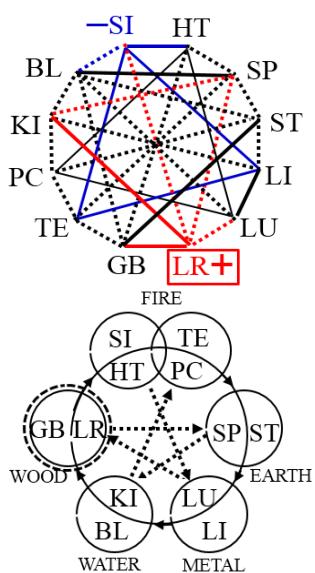

*Fig.8.63 Matrix. Paradoxical dependence of the complex "± ST...GB"*

Fig. 2.5

6. The traditional rule "LEFT-RIGHT (MAN-WOMAN)" in the complexes **SP-LR (LR-SP)** through all groups of observations is biophysically real, which is indicated by the asynchronicity of its system-functional dependency (fig.2.6).

*Matrix. Asynchronous dependence of the complex "± SP...LR "*

*Matrix. Asynchronous dependence of the complex "± LR...SP"*

Мал. 2.6

## Conclusions and perspectives of further development.

1. A matrix analysis of the empirical systemic dependence on the rule of "Left-Right (Man-Woman)" is negative (***in 50% of cases the hypothetical rule does not have biophysical support***).
2. Asynchronous interdependency exists only in the complexes **BL-TE (TE-BL)**, **KI-PC (PC-KI)**, and **SP-LR (KI-LR)**, which conditions the possibility of selective usage of the hypothetical influence...  
3. The discovered biophysical discrepancy points to the existence of other laws of systemic dependency, which requires appropriate retraining.  
2. "Vegetative Matrix" indicates the biophysically real system dependence of the "empirical rule".
